

AIRX[®] A2Z

A Truly Environmentally Safe Multi-Task Cleaner

**No butyl, No phosphates, No caustics,
No harsh chemicals**

Different countries vary in terms of what they consider environmentally preferable. **AirX A2Z** was developed from the ground up to address the wide range of environmental regulations around the world. It meets or exceeds all recognized green standards in Australia, Europe & the USA. We're so confident of its credentials that we're referring to **AirX A2Z** as the greenest of 'green' cleaners in terms of safety for the health of cleaning personnel, for occupants of the building & for the environment.

AirX A2Z uses only surfactants made from renewable resources like coconut oil & corn oil rather than those derived from petroleum. **AirX A2Z** further conserves petroleum by being twice the concentration of competitive brands so there is also half as much to ship. All of that from a product that really cleans without leaving a film behind to dull high gloss surfaces! It's a superior cleaner for everything from A to Z.

Benefits

- **MODERATE pH** - 8.5 (Coca-Cola 2.5 / Ivory Soap 10.2).
- **NO PHOSPHATES** - Phosphates support growth of algae which prevent oxygen from entering the water from the air, oxygen that is needed by fish & other aquatic life.
- **NO PETROLEUM SOLVENTS** - They produce VOCs to affect the liver, kidneys, respiratory & nervous system.
- **NO PETROLEUM DERIVED SURFACTANTS** - **AirX A2Z** surfactants are derived exclusively from corn oil & coconut oil which are renewable resources.
- **NO CHLORINE BLEACH** - Bleach can react with other chemicals to form toxic & carcinogen compounds.

- **NO BUTYL** - Butyl is derived from petroleum with all of the problems mentioned.
- **NO ALKYL PHENOL ETHOXYLATES** - This commonly used ingredient degrades to phenol & has high aquatic toxicity.
- **NO EDTA OR NTA** - They are difficult to remove in sewage treatment, causing downstream contamination.
- **LOW VOCS** - Can react to produce photochemical smog.
- **NO SARA III INGREDIENTS** - No ingredients considered hazardous.
- **NO HEAVY METALS** - **AirX A2Z** contains no calcium, chrome, lead, mercury, nickel or selenium.
- **NON-TOXIC** - Ingredients in **AirX A2Z** are not toxic according to OSHA (29 CFR 1910.1200 Appendix A).
- **NO ARTIFICIAL THICKENING** - The viscosity of **AirX A2Z** is controlled with a seaweed extract.
- **NO AMMONIA** - Ammonia vapor can be extremely irritating to the respiratory tract & the eyes.
- **NO FORMALDEHYDE** - A suspected carcinogen still used in some jan/san chemicals.
- **NO SILICATES** - Silicates can cause filtering problems in waste treatment plants.

AIRX A2Z A Truly Environmentally Safe Multi-Task Cleaner

AirX A2Z is as ‘multi-task’ as a cleaner can be. It is ideal for cleaning floors, walls, painted surfaces, furniture, leather & plastic furniture etc. Use it with a mop & bucket, with a sponge or cloth. Or dilute & use as a spray & wipe cleaner for all surfaces. Rinsing is not required except on food contact surfaces.

Benefits (continued)

- **NO CARCINOGENS** - or mutagens or teratogens.
- **NO PHENOLIC COMPOUNDS** - They are highly toxic & corrosive to the skin & eyes.
- **NO ADDED COLOR OR FRAGRANCE** - Contains only the natural color & natural fragrance of the ingredients.
- **NO OZONE DEPLETING COMPOUNDS** - Contains no chlorine, bromine or fluorine compounds.
- **READILY BIODEGRADABLE** - According to the OECD, AirX A2Z is considered 100% biodegradable.
- **EFFECTIVE IN COLD WATER** - Saves energy that’s required to heat water needed with some cleaners.
- **HIGHLY CONCENTRATED** - Use AirX A2Z diluted at one half the amount of other products. If you are not satisfied, your money will be refunded.

Directions

Dilutions below are starting points & should be varied up or down depending on type & amount of soil. Rinsing is only required on food contact surfaces.

LIGHT SOIL – For damp mopping marble, terrazzo, ‘wet look’ resilient floors: mix **AIRX A2Z** at 1 part to 128 parts water (1:128).

MEDIUM SOIL – For removal of tracked in dirt & rain on floors, for counter tops, cabinets, sinks: mix **AIRX A2Z** at 1 part to 40 parts water (1:40).

HEAVY SOIL – For walls, door frames, for spray & wipe cleaning: mix **AIRX A2Z** at 1 part to 20 parts water (1:20).

Specifications

COLOUR.....	GREEN
CLARITY.....	CLEAR
