

PRODUCT INFORMATION SHEET
All Clear

All Clear Type A Hand Cleaner for use in Food Preparation Areas

FEATURES

- All Clear is an unperfumed hand cleaner and contains a special blend of cleansers that effectively removes grease, fat, flour and other soils without drying the skin.
- All Clear contains glycerine and lanolin to moisturise and condition the skin. It leaves the skin feeling smooth and soft.
- All Clear has been classified as a Liquid Hand Soap Type A by AQIS & can be used in all areas of meat export establishments

HOW TO USE

- All Clear is a clear viscous liquid with practically no odour. It is a hand cleaner recommended to use in meat works and food processing areas where perfume could taint the food.
- If the skin is heavily soiled, squirt a small amount of All Clear onto the skin, then work into the soiling without any water, and then rinse off. If soiling is light, All Clear can be used like a conventional liquid soap and washed under the tap.
